## SCHEME OF EXAMINATION

The distribution of marks in internal assessment, End Semester College Exam, and End Semester University Exam for each course is shown below.

### I SEMESTER

S. No.	Course	Assessment (Marks)				
		Internal	End Semester College Exam	End Semester University Exam	Hours	Total Marks
	<b>Theory</b>					
1	Communicative English	25	2 5		2	50
2	Applied Anatomy & Applied Physiology	25		75	3	100
3	Applied Sociology & Applied Psychology	25		75	3	100
4	Nursing Foundations I	*25				
	<b>Practical</b>					
5	Nursing Foundations I	*25				

**\*Will be added to the internal marks of Nursing Foundations II Theory and Practical respectively in the next semester (Total weightage remains the same)**

#### **Example:**

Nursing Foundations Theory: Nursing Foundations I Theory Internal marks in 1<sup>st</sup> semester will be added to Nursing Foundations II Theory Internal in the 2<sup>nd</sup> semester and average of the two semesters will be taken.

## **I. INTRODUCTION OF THE PROGRAM**

The B.Sc. nursing degree program is a four-year fulltime program comprising eight semesters, which prepares B.Sc. nursing graduates qualified to practice nursing and midwifery in a variety of settings in either public/government or private healthcare settings. It adopts credit system and semester system as per the Authority guidelines with minor modifications suitable to professional education in a hybrid form. The program encompasses foundational, core and elective courses. The choice-based system is applicable to electives only and is offered in the form of modules. Modular learning is also integrated in the foundational as well as core courses that are mandatory.

The program prepares nurses and midwives for generalist nursing including midwifery practice. Knowledge acquisition related to wellness, health promotion, illness, disease management and care of the dying is core to nursing practice. Mastery of competencies is the main focus. Students are provided with opportunities to learn a whole range of skills in addition to acquiring knowledge related to nursing practice (nursing and midwifery). This is achieved through learning in skill lab/simulated lab and clinical environment. Simulation will be integrated throughout the curriculum wherever feasible to enable them to develop competencies before entry into real field of practice.

The revised curriculum embraces competency-based and outcome-based approach throughout the program integrating mastery learning and self-directed learning. Transformational and relationship based educational approaches are emphasized. Through the educational process the students assimilate and synthesize knowledge, cultivate critical thinking skills and develop care strategies. Competencies that reflect practice standards of the Council address the areas of cultural diversity, communication technology, teamwork and collaboration, safety, quality, therapeutic interventions and evidence- based practice. They are prepared to provide safe and competent care to patients across life span and influence patient outcomes.

## **I. PHILOSOPHY**

The Council believes that:

Health and wellness are two fundamental concepts that are integrated throughout the program. Health is a state of well-being that encompasses physical, psychological, social, economic and spiritual dimensions. Wellness is the individual's perception of wellness and is influenced by the presence of disease and individual's ability to adapt. Health is a right of all people. Individuals have a right to be active participants in achieving health as they perceive it. Society consists of dynamic and interactive systems involving individuals, families, groups and communities. Cultural diversity, race, caste, creed, socio economic levels, religion, lifestyles, changes in environment and political factors influence it. Nurses and midwives recognize and respect human differences and diversity of population within society and provide ethical care with respect and dignity and protect their rights.

Nursing as a profession and a discipline utilizes knowledge derived from arts, sciences (physical, biological and behavioral), humanities and human experience. Nursing science incorporates clinical competence, critical thinking, communication, teaching learning, professionalism, and caring and cultural competency. Nurses collaborate with other health disciplines to solve individual and community health problems. Nursing facilitates evidence-based practice, compassionate caring among its practitioners in response to emerging issues in healthcare and new discoveries and technologies in profession. Nursing practice requires personal commitment to professional development and life-long learning.

Scope of nursing and midwifery practice encompasses provision of promotive, preventive, curative and rehabilitative aspects of care to people across the life span in a wide variety of healthcare settings. Nursing practice is based on acquisition of knowledge, understanding, attitude, competencies and skills through the Council's curricular and practice standards. The competencies in which the students are trained will guide them in performing their scope of practice. Nursing offers qualified nurses and midwives a wealth of opportunities in the field of practice, education, management and research in India and overseas.

The undergraduate nursing program is broad based education within an academic curricular framework specifically directed to the development of critical thinking skills, competencies appropriate to human and professional values. Blended learning approach comprising of experiential learning, reflective learning, scenario based learning and simulated learning is also inbuilt. The teaching learning process encourages mastery learning, modular, self-directed and self-accountable in choice making in terms of elective courses. The program prepares its graduates to become exemplary citizens by adhering to code of ethics and professional conduct at all times in fulfilling personal, social and professional obligations so as to respond to national aspirations. Health and community orientation are provided with special emphasis on national health problems, national health programs and national health policy directives to achieve universal health care for all citizens of India. The main roles of graduates would be provider of care with beginning proficiency in delivering safe care, coordinator/manager of care by being active participant of inter-professional team and member of a profession demonstrating self-responsibility and accountability for practice as well as to support the profession.

The faculty has the responsibility to be role models and create learning environment that facilitates cultivation of critical thinking, curiosity, creativity and inquiry driven self-directed learning and attitude of life-long learning in students. Learners and educators interact in a process whereby students gain competencies required to function within their scope of practice.

## **II. AIMS & OBJECTIVES**

### **AIMS**

The aims of the undergraduate program are to

- a. Produce knowledgeable competent nurses and midwives with clear critical thinking skills who are caring, motivated, assertive and well-disciplined responding to the changing needs of profession, healthcare delivery system and society.
- b. Prepare them to assume responsibilities as professional, competent nurses and midwives in providing promotive, preventive, curative and rehabilitative healthcare services in any healthcare setting.
- c. Prepare nurses and midwives who can make independent decisions in nursing situations within the scope of practice, protect the rights of individuals and groups and conduct research in the areas of nursing practice and apply evidence- based practice.
- d. Prepare them to assume role of practitioner, teacher, supervisor and manager in all healthcare settings.

### **OBJECTIVES**

On completion of the B.Sc. Nursing program, the B.Sc. nursing graduates will be able to

1. Utilize critical thinking to synthesize knowledge derived from physical, biological, behavioral sciences, and humanities, in the practice of professional nursing and midwifery.
2. Practice professional nursing and midwifery competently and safely in diverse settings, utilizing caring, critical thinking and therapeutic nursing interventions with individuals, families, populations and communities at any developmental stage and with varied lived health experiences.
3. Provide promotive, preventive and restorative health services in line with national health policies and programs.
4. Integrate professional caring into practice decisions that encompass values, ethical, and moral and legal aspects of nursing.
5. Respect the dignity, worth, and uniqueness of self and others.
6. Apply concepts of leadership, autonomy and management to the practice of nursing and midwifery to enhance quality and safety in health care.

7. Utilize the latest knowledge and skills related to information and technology to enhance patient outcomes.
8. Communicate effectively with patients, peers, and all health care providers.
9. Utilize the requisite knowledge, skills and technologies to practice independently and collaboratively with all health professionals applying the principles of safety and quality improvement.
10. Integrate research findings and nursing theory in decision making in evidence-based practice.
11. Accept responsibility and accountability for the effectiveness of one's own nursing and midwifery practice and professional growth as a learner, clinician and leader.
12. Participate in the advancement of the profession to improve health care for the betterment of the global society.

## **2. CURRICULUM IMPLEMENTATION: OVERALL PLAN**

**Duration of the program: 8 semesters**

### **1-7 Semesters**

One Semester Plan for the first 7 Semesters

Total Weeks per Semester: 26 weeks per semester

Number of Weeks per Semester for instruction: 20 weeks (40 hours per week  $\times$  20 weeks = 800 hours) Number of Working Days: Minimum of 100 working days (5 days per week  $\times$  20 weeks)

Vacation, Holidays, Examination and Preparatory

Holidays: 6 weeks

Vacation: 3 weeks

Holidays: 1 week

Examination and Preparatory Holidays: 2 weeks

### **8<sup>th</sup> Semester**

One semester: 22 weeks

Vacation: 1 week

Holidays: 1 week

Examination and Preparatory Holidays: 2 weeks

### 3. COURSES OF INSTRUCTION WITH CREDIT STRUCTURE

S.No	Semester	Course Code	Course/Subject Title	Theory credits	Theory Contact hours	Lab/Skill Lab credits	Lab/Skill Lab Contact hours	Clinical credits	Clinical Contact hours	Total credits	Total (hours)
1	First	ENGL 101	Communicative English	2	40						40
		ANAT 105	Applied Anatomy	3	60						60

#### 4. SCHEME OF EXAMINATION

The distribution of marks in internal assessment, End Semester College Exam, and End Semester University Exam for each course is shown below.

#### I SEMESTER

S.No.	Course	Assessment (Marks)				
		Internal	End Semester College Exam	End Semester University Exam	Hours	Total Marks
	<b>Theory</b>					
1	Communicative English	25	25		2	50
2	Applied Anatomy & Applied Physiology	25		75	3	100
3	Applied Sociology & Applied Psychology	25		75	3	100
4	Nursing Foundations I	*25				
	<b>Practical</b>					
5	Nursing Foundations I	*25				

**\*Will be added to the internal marks of Nursing Foundations II Theory and Practical respectively in the next semester (Total weightage remains the same)**

**Example:**

Nursing Foundations Theory: Nursing Foundations I Theory Internal marks in 1<sup>st</sup> semester will be added to Nursing Foundations II Theory Internal in the 2<sup>nd</sup> semester and average of the two semesters will be taken.

## II SEMESTER

S.No.	Course	Assessment (Marks)				
		Internal	End Semester College Exam	End Semester University Exam	Hours	Total Marks
<b>Theory</b>						
1	Applied Biochemistry and Applied Nutrition & Dietetics	25		75	3	100
2	Nursing Foundations (I & II)	25 I Sem-25 & II Sem-25 (with average ofboth)		75	3	100
3	Health/Nursing Informatics & Technology	25	25		2	50
<b>Practical</b>						
4	Nursing Foundations (I & II)	50 I Sem-25 & II Sem-25		50		100

## VII. ASSESSMENT GUIDELINES

### 1. Grading of Performance

Based on the performance, each student shall be awarded a final grade at the end of the semester for each course.

Absolute grading is used by converting the marks to grade, based on predetermined class intervals.

UGC 10 point grading system is used with pass grade modified.

Letter grade	Grade point	Percentage of marks
O (Outstanding)	10	100%
A+ (Excellent)	9	90-99.99%
A (Very Good)	8	80-89.99%
B+ (Good)	7	70-79.99%
B (Above Average)	6	60-69.99%
C (Average)	5	50-59.99%
P (Pass)	4	40-49.99%
F (Fail)	0	

For Nursing Courses and all other courses – Pass is at C Grade (5 grade point) 50% and above

For English and electives – Pass is at P Grade (4 grade point) 40% and above

### Computation of Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA)

SPGA is the weighted average of the grade points obtained in all courses by the student during the semester (All courses excluding English and electives)

#### Ex. SGPA Computation

Course Number	Credit /s	Letter grade	Grade point	Credit point (Credit × grade)
1	3 (C1)	A	8 (G1)	$3 \times 8 = 24$
2	4 (C2)	B+	7 (G2)	$4 \times 7 = 28$

3	3 (C3)	B	6 (G3)	$3 \times 6 = 18$
---	--------	---	--------	-------------------

$$\text{SGPA} = \frac{C1G1 + C2G2 + C3G3}{C1 + C2 + C3} = \frac{70}{10} = 7 \text{ (rounded off to two decimal points)}$$

**SYLLABUS**  
**COMMUNICATIVE ENGLISH**

**PLACEMENT:** I SEMESTER

**THEORY:** 2 Credits (40 hours)

**DESCRIPTION:** The course is designed to enable students to enhance their ability to speak and write the language (and use English) required for effective communication in their professional work. Students will practice their skills in verbal and written English during clinical and classroom experience.

**COMPETENCIES:** On completion of the course, the students will be able to

1. Identify the significance of Communicative English for healthcare professionals.
2. Apply the concepts and principles of English Language use in professional development such as pronunciation, vocabulary, grammar, paraphrasing, voice modulation, Spelling, pause and silence.
3. Demonstrate attentive listening in different hypothetical situations.
4. Converse effectively, appropriately and timely within the given context and the individual or team they are communicating with either face to face or by other means.
5. Read, interpret and comprehend content in text, flow sheet, framework, figures, tables, reports, anecdotes etc.
6. Analyse the situation and apply critical thinking strategies.
7. Enhance expressions through writing skills.
8. Apply LSRW (Listening, Speaking, Reading and Writing) Skill in combination to learn, teach, educate and share information, ideas and results.

**COURSE OUTLINE**

**T – Theory**

<b>Unit</b>	<b>Time (Hrs)</b>	<b>Learning Outcomes</b>	<b>Content</b>	<b>Teaching/ Learning Activities</b>	<b>Assessment Methods</b>
<b>I</b>	3 (T)	Identify the significance of communicative English	<b>Communication</b> <ul style="list-style-type: none"> <li>• What is communication?</li> <li>• What are communication roles of listeners, speakers, readers and writers as healthcare professionals?</li> </ul>	<ul style="list-style-type: none"> <li>• Definitions with examples, illustrations and explanations</li> <li>• Identifying competencies/ communicative strategies in LSRW</li> <li>• Reading excerpts on the above and interpreting them through tasks</li> </ul>	<ul style="list-style-type: none"> <li>• Checking for understanding through tasks</li> </ul>

<p><b>II</b></p>	<p>5 (T)</p>	<p>Describe concepts and principles of Language (English) use in professional development such as pronunciation, vocabulary, grammar, paraphrasing, voice modulation, spelling, pause and silence</p>	<p><b>Introduction to LSRGW</b></p> <ul style="list-style-type: none"> <li>• L – Listening: Different types of listening</li> <li>• S – Speaking: Understanding Consonants, Vowels, Word and Sentence Stress, Intonation</li> <li>• R – Reading: Medical vocabulary,</li> <li>• Gr – Grammar: Understanding tenses, linkers</li> <li>• W – Writing simple sentences and short paragraphs – emphasis on correct grammar</li> </ul>	<ul style="list-style-type: none"> <li>• Exercises on listening to news, announcements, telephone conversations and instructions from others</li> <li>• Information on fundamentals of Speech – Consonant, Vowel, Stress and Intonation with tasks based on these through audio/video and texts</li> <li>• Reading a medical dictionary/ glossary of medical terms with matching exercises</li> <li>• Information on tenses and basic concepts of correct grammar through fill in the blanks, true/false questions</li> </ul>	<ul style="list-style-type: none"> <li>• Through ‘check your understanding’ exercises</li> </ul>
				<ul style="list-style-type: none"> <li>•</li> </ul>	<ul style="list-style-type: none"> <li>•</li> </ul>

Unit	Time (Hrs)	Learning Outcomes	Content	Teaching/ Learning Activities	Assessment Methods
III	5 (T)	Demonstrate attentive listening in different hypothetical situations	<b>Attentive Listening</b> <ul style="list-style-type: none"> <li>• Focusing on listening in different situations – announcements, descriptions, narratives, instructions, discussions, demonstrations</li> <li>• Reproducing Verbatim</li> <li>• Listening to academic talks/ lectures</li> <li>• Listening to presentation</li> </ul>	<ul style="list-style-type: none"> <li>• Listening to announcements, news, documentaries with tasks based on listening</li> <li>• With multiple choice, Yes/No and fill in the blank activities</li> </ul>	<ul style="list-style-type: none"> <li>• Checking individually against correct answers</li> <li>• Listening for specific information</li> <li>• Listening for overall meaning and instructions</li> <li>• Listening to attitudes and opinions</li> <li>• Listening to audio, video and identify key points</li> </ul>
IV	9 (T)	Converse effectively, appropriately and timely within the given context and the individual or team they are communicating with either face to face or other means	<b>Speaking – Effective Conversation</b> <ul style="list-style-type: none"> <li>• Conversation situations – informal, formal and neutral</li> <li>• Factors influencing way of speaking – setting, topic, social relationship, attitude and language</li> <li>• Greetings, introductions, requesting, asking for and giving permission, speaking personally and casual conversations</li> <li>• Asking for information, giving instructions and directions</li> <li>• Agreeing and disagreeing, giving opinions</li> <li>• Describing people, places, events and things, narrating, reporting &amp; reaching conclusions</li> <li>• Evaluating and comparing</li> <li>• Complaints and suggestions</li> <li>• Telephone conversations</li> <li>• Delivering presentations</li> </ul>	<ul style="list-style-type: none"> <li>• Different types of speaking activities related to the content</li> <li>• Guided with prompts and free discussions</li> <li>• Presentation techniques</li> <li>• Talking to peers and other adults.</li> <li>• Talking to patients and Patient attenders</li> <li>• Talking to other healthcare professionals</li> <li>• Classroom conversation</li> <li>• Scenario based learning tasks</li> </ul>	<ul style="list-style-type: none"> <li>• Individual and group/peer assessment through live speaking tests</li> <li>• Presentation of situation in emergency and routine</li> <li>• Handoff</li> <li>• Reporting in doctors/nurses' rounds</li> <li>• Case presentation</li> <li>• Face to face oral communication</li> <li>• Speaking individually (Nurse to nurse/patient/ doctor) and to others in the group</li> <li>• Telephonic talking</li> </ul>
V	5 (T)	Read, interpret and comprehend content in text, flow sheet, framework, figures, tables, reports, anecdotes	<ul style="list-style-type: none"> <li>• <b>Reading</b></li> <li>• Reading strategies, reading notes and messages</li> <li>• Reading relevant articles and news items</li> <li>• Vocabulary for everyday activities, abbreviations and medical vocabulary</li> <li>• Understanding visuals, graphs, figures and notes on instructions</li> </ul>	<ul style="list-style-type: none"> <li>• Detailed tasks and exercises on reading for information, inference and evaluation</li> <li>• Vocabulary games and puzzles for medical lexis</li> </ul>	<ul style="list-style-type: none"> <li>• Reading/ summarizing/ justifying answers orally</li> <li>• Patient document</li> <li>• Doctor's prescription of care</li> <li>• Journal/news</li> </ul>

Unit	Time (Hrs)	Learning Outcomes	Content	Teaching/ Learning Activities	Assessment Methods
			<ul style="list-style-type: none"> <li>• Reading reports and interpreting them</li> <li>• Using idioms and phrases, spotting errors, vocabulary for presentations</li> <li>• Remedial Grammar</li> </ul>	<ul style="list-style-type: none"> <li>• Grammar activities</li> </ul>	<ul style="list-style-type: none"> <li>• reading and interpretation</li> <li>• Notes/Reports</li> </ul>

## APPLIED ANATOMY

**PLACEMENT:** I SEMESTER

**THEORY:** 3 Credits (60 hours)

**DESCRIPTION:** The course is designed to assist student to recall and further acquire the knowledge of the normal structure of human body, identify alteration in anatomical structure with emphasis on clinical application to practice nursing.

**COMPETENCIES:** On completion of the course, the students will be able to

1. Describe anatomical terms.
2. Explain the general and microscopic structure of each system of the body.
3. Identify relative positions of the major body organs as well as their general anatomic locations.
4. Explore the effect of alterations in structure.
5. Apply knowledge of anatomic structures to analyze clinical situations and therapeutic applications.

### COURSE OUTLINE

## APPLIED PHYSIOLOGY

**PLACEMENT:** I SEMESTER

**THEORY:** 3 Credits (60 hours)

**DESCRIPTION:** The course is designed to assist student to acquire comprehensive knowledge of the normal functions of the organ systems of the human body to facilitate understanding of physiological basis of health, identify alteration in functions and provide the student with the necessary physiological knowledge to practice nursing.

**COMPETENCIES:** On completion of the course, the students will be able to

1. Develop understanding of the normal functioning of various organ systems of the body.
2. Identify the relative contribution of each organ system towards maintenance of homeostasis.
3. Describe the effect of alterations in functions.
4. Apply knowledge of physiological basis to analyze clinical situations and therapeutic applications.

### COURSE OUTLINE

T – Theory

Unit	Time (Hrs)	Learning Outcomes	Content	Teaching/ Learning Activities	Assessment Methods
I	4 (T)	Describe the physiology of cell, tissues, membranes and glands	<b>General Physiology – Basic concepts</b> <ul style="list-style-type: none"> <li>• Cell physiology including transportation across cell membrane</li> <li>• Body fluid compartments, Distribution of total body fluid, intracellular and extracellular compartments, major electrolytes and maintenance of homeostasis</li> <li>• Cell cycle</li> <li>• Tissue – formation, repair</li> <li>• Membranes and glands – functions</li> <li>• Application and implication in nursing</li> </ul>	<ul style="list-style-type: none"> <li>• Review – discussion</li> <li>• Lecture cum Discussion</li> <li>• Video demonstrations</li> </ul>	<ul style="list-style-type: none"> <li>• Quiz</li> <li>• MCQ</li> <li>• Short answer</li> </ul>
II	6 (T)	Describe the physiology and mechanism of respiration	<b>Respiratory system</b> <ul style="list-style-type: none"> <li>• Functions of respiratory organs</li> <li>• Physiology of respiration</li> </ul>	<ul style="list-style-type: none"> <li>• Lecture</li> <li>• Video slides</li> </ul>	<ul style="list-style-type: none"> <li>• Essay</li> <li>• Short answer</li> <li>• MCQ</li> </ul>

		Identify the muscles of respiration and examine their contribution to the mechanism of breathing	<ul style="list-style-type: none"> <li>• Pulmonary circulation – functional features</li> <li>• Pulmonary ventilation, exchange of gases</li> <li>• Carriage of oxygen and carbon-dioxide, Exchange of gases in tissue</li> <li>• Regulation of respiration</li> <li>• Hypoxia, cyanosis, dyspnea, periodic breathing</li> <li>• Respiratory changes during exercise</li> <li>• Application and implication in nursing</li> </ul>		
<b>III</b>	8 (T)	Describe the functions of digestive system	<b>Digestive system</b> <ul style="list-style-type: none"> <li>• Functions of the organs of digestive tract</li> <li>• Saliva – composition, regulation of secretion and functions of saliva</li> <li>• Composition and function of gastric juice, mechanism and regulation of gastric secretion</li> <li>• Composition of pancreatic juice, function, regulation of pancreatic secretion</li> <li>• Functions of liver, gall bladder and pancreas</li> <li>• Composition of bile and function</li> <li>• Secretion and function of small and large intestine</li> <li>• Movements of alimentary tract</li> <li>• Digestion in mouth, stomach, small intestine, large intestine, absorption of food</li> <li>• Application and implications in nursing</li> </ul>	<ul style="list-style-type: none"> <li>• Lecture cum Discussion</li> <li>• Video slides</li> </ul>	<ul style="list-style-type: none"> <li>• Essay</li> <li>• Short answer</li> <li>• MCQ</li> </ul>
<b>IV</b>	6 (T)	Explain the functions of the	<b>Circulatory and Lymphatic system</b> <ul style="list-style-type: none"> <li>• Functions of heart, conduction system,</li> </ul>	<ul style="list-style-type: none"> <li>• Lecture</li> </ul>	<ul style="list-style-type: none"> <li>• Short answer</li> </ul>
<b>Unit</b>	<b>Time (Hrs)</b>	<b>Learning Outcomes</b>	<b>Content</b>	<b>Teaching/ Learning Activities</b>	<b>Assessment Methods</b>
		heart, and physiology of circulation	<b>cardiac cycle, Stroke volume and cardiac output</b> <ul style="list-style-type: none"> <li>• <b>Blood pressure and Pulse</b></li> <li>• <b>Circulation – principles, factors influencing blood pressure, pulse</b></li> <li>• <b>Coronary circulation, Pulmonary and systemic circulation</b></li> <li>• <b>Heart rate – regulation of heart rate</b></li> <li>• <b>Normal value and variations</b></li> <li>• <b>Cardiovascular homeostasis in exercise</b></li> </ul>	<ul style="list-style-type: none"> <li>• Discussion</li> <li>• Video/Slides</li> </ul>	<ul style="list-style-type: none"> <li>• MCQ</li> </ul>

			<b>and posture</b> <b>• Application and implication in nursing</b>		
--	--	--	---	--	--

<b>V</b>	5 (T)	Describe the composition and functions of blood	<b>Blood</b> <ul style="list-style-type: none"> <li>• Blood – Functions, Physical characteristics</li> <li>• Formation of blood cells</li> <li>• Erythropoiesis – Functions of RBC, RBC life cycle</li> <li>• WBC – types, functions</li> <li>• Platelets – Function and production of platelets</li> <li>• Clotting mechanism of blood, clotting time, bleeding time, PTT</li> <li>• Hemostasis – role of vasoconstriction, platelet plug formation in hemostasis, coagulation factors, intrinsic and extrinsic pathways of coagulation</li> <li>• Blood groups and types</li> <li>• Functions of reticuloendothelial system, immunity</li> <li>• Application in nursing</li> </ul>	<ul style="list-style-type: none"> <li>• Lecture</li> <li>• Discussion</li> <li>• Videos</li> </ul>	<ul style="list-style-type: none"> <li>• Essay</li> <li>• Short answer</li> <li>• MCQ</li> </ul>
<b>VI</b>	5 (T)	Identify the major endocrine glands and describe their functions	<b>The Endocrine system</b> <ul style="list-style-type: none"> <li>• Functions and hormones of Pineal Gland, Pituitary gland, Thyroid, Parathyroid, Thymus, Pancreas and Adrenal glands.</li> <li>• Other hormones</li> <li>• Alterations in disease</li> <li>• Application and implication in nursing</li> </ul>	<ul style="list-style-type: none"> <li>• Lecture</li> <li>• Explain using charts</li> </ul>	<ul style="list-style-type: none"> <li>• Short answer</li> <li>• MCQ</li> </ul>
<b>VII</b>	4 (T)	Describe the structure of various sensory organs	<b>The Sensory Organs</b> <ul style="list-style-type: none"> <li>• Functions of skin</li> <li>• Vision, hearing, taste and smell</li> <li>• Errors of refraction, aging changes</li> <li>• Application and implications in nursing</li> </ul>	<ul style="list-style-type: none"> <li>• Lecture</li> <li>• Video</li> </ul>	<ul style="list-style-type: none"> <li>• Short answer</li> <li>• MCQ</li> </ul>
<b>VIII</b>	6 (T)	Describe the functions of	<b>Musculoskeletal system</b>	<ul style="list-style-type: none"> <li>• Lecture</li> </ul>	<ul style="list-style-type: none"> <li>• Structured essay</li> </ul>

<b>Unit</b>	<b>Time (Hrs)</b>	<b>Learning Outcomes</b>	<b>Content</b>	<b>Teaching/ Learning Activities</b>	<b>Assessment Methods</b>
-------------	-------------------	--------------------------	----------------	--------------------------------------	---------------------------

		bones, joints, various types of muscles, its special properties and nerves supplying them	<ul style="list-style-type: none"> <li>• Bones – Functions, movements of bones of axial and appendicular skeleton, Bone healing</li> <li>• Joints and joint movements</li> <li>• Alteration of joint disease</li> <li>• Properties and Functions of skeletal muscles – mechanism of muscle contraction</li> <li>• Structure and properties of cardiac muscles and smooth muscles</li> <li>• Application and implication in nursing</li> </ul>	<ul style="list-style-type: none"> <li>• Discussion</li> <li>• Video presentation</li> </ul>	<ul style="list-style-type: none"> <li>• Short answer</li> <li>• MCQ</li> </ul>
--	--	---	---	--	---

<b>IX</b>	4 (T)	Describe the physiology of renal system	<b>Renal system</b> <ul style="list-style-type: none"> <li>• Functions of kidney in maintaining homeostasis</li> <li>• GFR</li> <li>• Functions of ureters, bladder and urethra</li> <li>• Micturition</li> <li>• Regulation of renal function</li> <li>• Application and implication in nursing</li> </ul>	<ul style="list-style-type: none"> <li>• Lecture</li> <li>• Charts and models</li> </ul>	<ul style="list-style-type: none"> <li>• Short answer</li> <li>• MCQ</li> </ul>
-----------	-------	---	---	--	---

<b>X</b>	4 (T)	Describe the structure of reproductive system	<b>The Reproductive system</b> <ul style="list-style-type: none"> <li>• Female reproductive system – Menstrual cycle, function and hormones of ovary, oogenesis, fertilization, implantation, Functions of breast</li> <li>• Male reproductive system – Spermatogenesis, hormones and its functions, semen</li> <li>• Application and implication in providing nursing care</li> </ul>	<ul style="list-style-type: none"> <li>• Lecture</li> <li>• Explain using charts, models, specimens</li> </ul>	<ul style="list-style-type: none"> <li>• Short answer</li> <li>• MCQ</li> </ul>
----------	-------	---	--	--	---

<b>XI</b>	8 (T)	Describe the functions of brain, physiology of nerve stimulus, reflexes, cranial and spinal nerves	<ul style="list-style-type: none"> <li>• <b>Nervous system</b></li> <li>• Overview of nervous system</li> <li>• Review of types, structure and functions of neurons</li> <li>• Nerve impulse</li> <li>• Review functions of Brain-Medulla, Pons, Cerebrum, Cerebellum</li> <li>• Sensory and Motor Nervous system</li> <li>• Peripheral Nervous system</li> <li>• Autonomic Nervous system</li> <li>• Limbic system and higher mental Functions- Hippocampus, Thalamus, Hypothalamus</li> <li>• Vestibular apparatus</li> <li>• Functions of cranial nerves</li> <li>• Autonomic functions</li> <li>• Physiology of Pain-somatic, visceral and referred</li> </ul>	<ul style="list-style-type: none"> <li>• Lecture cum Discussion</li> <li>• Video slides</li> </ul>	<ul style="list-style-type: none"> <li>• Brief structured essays</li> <li>• Short answer</li> <li>• MCQ</li> <li>• Critical reflection</li> </ul>
-----------	-------	--	--	--	---

<b>Unit</b>	<b>Time (Hrs)</b>	<b>Learning Outcomes</b>	<b>Content</b>	<b>Teaching/ Learning Activities</b>	<b>Assessment Methods</b>
			<ul style="list-style-type: none"> <li>• Reflexes</li> <li>• CSF formation, composition, circulation of CSF, blood brain barrier and blood CSF barrier</li> <li>• Application and implication in nursing</li> </ul>

## NURSING FOUNDATION - I (including First Aid module)

**PLACEMENT:** I SEMESTER

**THEORY:** 6 Credits (120 hours)

**PRACTICUM:** Skill Lab: 2 Credits (80 hours) and Clinical: 2 Credits (160 hours)

**DESCRIPTION:** This course is designed to help novice nursing students develop knowledge and competencies required to provide evidence-based, comprehensive basic nursing care for adult patients, using nursing process approach.

**COMPETENCIES:** On completion of the course, the students will be able to

1. Develop understanding about the concept of health, illness and scope of nursing within health care services.
2. Apply values, code of ethics and professional conduct in professional life.
3. Apply the principles and methods of effective communication in establishing communication links with patients, families and other health team members.
4. Develop skill in recording and reporting.
5. Demonstrate competency in monitoring and documenting vital signs.
6. Describe the fundamental principles and techniques of infection control and biomedical waste management.
7. Identify and meet the comfort needs of the patients.
8. Perform admission, transfer, and discharge of a patient under supervision applying the knowledge.
9. Demonstrate understanding and application of knowledge in caring for patients with restricted mobility.
10. Perform first aid measures during emergencies.
11. Identify the educational needs of patients and demonstrate basic skills of patient education.

**\*Mandatory Module used in Teaching/Learning:**

First Aid: 40 Hours (including Basic CPR)

### COURSE OUTLINE

**T – Theory, SL – Skill Lab**

Unit	Time (Hrs)	Learning Outcomes	Content	Teaching/ Learning Activities	Assessment Methods
<b>I</b>	5 (T)	Describe the concept of health and illness	<b>Introduction to health and illness</b> Concept of Health – Definitions (WHO), Dimensions Maslow's hierarchy of needs Health – Illness continuum Factors influencing health Causes and risk factors for developing illnesses Illness – Types, illness behavior Impact of illness on patient and family	Lecture Discussion	Essay Short answer Objective type

\*Mandatory Module

## **CLINICAL PRACTICUM**

**Clinical Practicum:** 2 Credits (160 hours), 10 weeks × 16 hours per week

**PRACTICE COMPETENCIES:** On completion of the clinical practicum, the students will be able to

1. Maintain effective human relations (projecting professional image)
2. Communicate effectively with patient, families and team members
3. Demonstrate skills in techniques of recording and reporting
4. Demonstrate skill in monitoring vital signs
5. Care for patients with altered vital signs
6. Demonstrate skill in implementing standard precautions and use of PPE
7. Demonstrate skill in meeting the comfort needs of the patients
8. Provide safe and clean environment
9. Demonstrate skill in admission, transfer, and discharge of a patient
10. Demonstrate skill in caring for patients with restricted mobility
11. Plan and provide appropriate health teaching following the principles
12. Acquire skills in assessing and performing First Aid during emergencies.

## SKILL LAB

### Use of Mannequins and Simulators

S.No.	Competencies	Mode of Teaching
1.	Therapeutic Communication and Documentation	Role Play
2.	Vital signs	Simulator/Standardized patient
3.	Medical and Surgical Asepsis	Videos/Mannequin
4.	Pain Assessment	Standardized patient
5.	Comfort Devices	Mannequin
6.	Therapeutic Positions	Mannequin
7.	Physical Restraints and Side rails	Mannequin
8.	ROM Exercises	Standardized patient
9.	Ambulation	Standardized patient
10.	Moving and Turning patients in bed	Mannequin
11.	Changing position of helpless patients	Mannequin/Standardized patient
12.	Transferring patients bed to stretcher/wheel chair	Mannequin/Standardized patient
13.	Admission, Transfer, Discharge & Health Teaching	Role Play

**CLINICAL POSTINGS – General Medical/Surgical Wards**

**10 weeks × 16 hours/week = 160 Hours**

<b>Clinical Unit</b>	<b>Duration (in Weeks)</b>	<b>Learning Outcomes</b>	<b>Procedural Competencies/ Clinical Skills (Supervised Clinical Practice)</b>	<b>Clinical Requirements</b>	<b>Assessment Methods</b>
General Medical/Surgical wards	2	Maintain effective human relations (projecting professional image)  Communicate effectively with patient, families and team members  Demonstrate skills in techniques of recording and reporting	<b>Communication and Nurse patient relationship</b> <ul style="list-style-type: none"> <li>• Maintaining Communication with patient and family and interpersonal relationship</li> <li>• Documentation and Reporting                             <ul style="list-style-type: none"> <li>○ Documenting patient care and procedures</li> <li>○ Verbal report</li> <li>○ Written report</li> </ul> </li> </ul>		<ul style="list-style-type: none"> <li>• OSCE</li> </ul>
	2	Demonstrate skill in monitoring vital signs  Care for patients with altered vital signs  Demonstrate skill in implementing standard precautions and use of PPE	<i>Vital signs</i> <ul style="list-style-type: none"> <li>• Monitor/measure and document vital signs in a graphic sheet                             <ul style="list-style-type: none"> <li>○ Temperature (oral, tympanic, axillary)</li> <li>○ Pulse (Apical and peripheral pulses)</li> <li>○ Respiration</li> <li>○ Blood pressure</li> <li>○ Pulse oximetry</li> </ul> </li> <li>• Interpret and report alteration</li> <li>• Cold Applications – Cold Compress, Ice cap, Tepid Sponging</li> <li>• Care of equipment – thermometer, BP apparatus, Stethoscope, Pulse oximeter</li> </ul> <i>Infection control in Clinical settings</i> <ul style="list-style-type: none"> <li>• Hand hygiene</li> <li>• Use of PPE</li> </ul>	<ul style="list-style-type: none"> <li>• Care of patients with alterations in vital signs- 1</li> </ul>	<ul style="list-style-type: none"> <li>• Assessment of clinical skills using checklist</li> <li>• OSCE</li> </ul>
	3	Demonstrate skill in meeting the comfort needs of the patients	<b>Comfort, Rest &amp; Sleep, Pain and Promoting Safety in Health Care Environment</b> <i>Comfort, Rest &amp; Sleep</i> <ul style="list-style-type: none"> <li>• Bed making-                             <ul style="list-style-type: none"> <li>○ Open</li> <li>○ Closed</li> <li>○ Occupied</li> <li>○ Post-operative</li> </ul> </li> </ul>		<ul style="list-style-type: none"> <li>• Assessment of clinical skills using checklist</li> <li>• OSCE</li> </ul>
